Gary,

I hope that all is going well with the cleanup efforts. I recently spoke with Ms. Roslyn Johnson who shared that a neighborhood open house will be held on November 20. I was hoping that you could share any details with me about that meeting so that we can make sure people know about it. I also understand that there is another meeting planned for December 11. I don't have many details, so again I hope that you can provide more information about that as well. Thank you for all that you are doing.
